

Nickel Gap Siding

Nickel Gap Siding is the newest addition to the TruExterior[®] Siding Craftsman Collection[™]. The tongue-and-groove profile is self-gapping, creating a consistent nickel sized space between each board, allowing installers to achieve the traditional look of perfectly-spaced shiplap siding quickly and easily, without the need for spacers.

TruExterior[®] Siding

Boral has created an entirely new category of siding products with its TruExterior[®] Siding. The six new Craftsman Collection[™] profiles recreate the look and feel of traditional wood siding but perform better, are remarkably workable and have a lasting look – offering a solution for homeowners who desire the look and feel of traditional wood siding without the constant maintenance and upkeep associated with exterior wood products.

Nickel Gap Specifications

Nominal Size	Thickness (A)	Actual Width (B)	Reveal (C)	Gap (D)	Tongue (E)
11/16 x 4	0.6875"	3.50"	3.1591"	0.08"	0.3409"
11/16 x 6	0.6875"	5.50"	5.1591"	0.08"	0.3409"
11/16 x 8	0.6875"	7.25"	6.9091"	0.08"	0.3409"
11/16 x 10	0.6875"	9.25"	7.9091"	0.08"	0.3409"
